

Antrim Streamside is a beautiful retreat set on the banks of the Willowemoc, in the heart of the Catskills, approximately two hours from New York City. Our inspired location, with multiple flexible meeting spaces, provides endless opportunities to explore, recharge and relax.

Whether you're planning an intimate offsite to inspire big ideas or a large scale team celebration, Streamside has you covered. We welcome those looking to host events and gatherings of all kinds for up to 150 attendees.

ACCOMMODATIONS & MEETING SPACES

Antrim Streamside's fully renovated accommodations sleep up to 25 people across six individual buildings. There are a total of 9 bedrooms, with 11 beds, and 4 sleeper sofas. Additional group members can easily be accommodated in nearby establishments.

Each of our lodging options feature high speed wifi, modern amenities, climate control and fully-equipped kitchens or kitchenettes along with patios, fire pits and grills. We provide complimentary continental breakfast featuring local products.

The newly constructed Fern Brook Hall was designed to serve as a central gathering place and features towering windows, a floor to ceiling river stone, wood-burning fireplace, restaurant-grade kitchen, and an expansive patio complete with a fire pit and panoramic views of the grounds.

PROPERTY & LOCATION

Guests can enjoy a quarter mile of private access to the stream right outside their accommodation doors, which when combined with adjacent public water, provides approximately 1.5 miles of contiguous water to explore. Antrim Streamside also has two ponds, an apple orchard, and 250 acres of private woods filled with hiking trails and wildlife.

Venture a little farther and find a myriad of other activities, local breweries and eateries, trendy boutiques, and scenic places to visit, including our own livestock farm, Beaver Lake Farm, where we produce pasture raised proteins that you can serve at your events. Our dedicated management team is well connected to a network of experts and outfitters to bring you unique activities like foraging, falconry, and flower arranging.
